15:20 - 16:30	Establishing action plan

Promoting the capacity of suppliers in global supply chains

Multinationals and large national companies are continuously looking for new ways to increase compliance and sustainability and to improve service and innovate.

Large corporations are demonstrating their commitment to drive change through their Corporate Social Responsibility agendas and improve working conditions across their global supply chains. However, it is now widely recognised that audits alone cannot bring about longterm change. That's where introducing SCORE Training to suppliers can help.

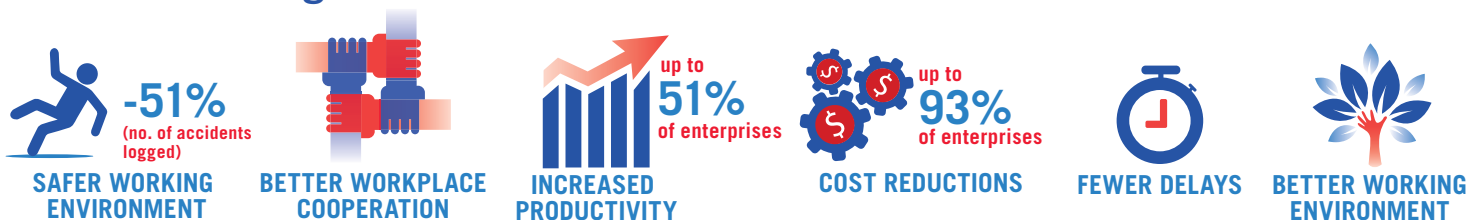

SCORE Training is designed to bring about long-lasting improvements in supplier practices by highlighting the link between productivity and workplace practices: a win-win for employees and employers.

That's why a partnership between ICS and the ILO Score Training to suppliers has been defined to support factories and suppliers to sustainably improve conditions for people at work, being focused on workplace cooperation and occupational health and safety issues in the current training.

Key SCORE Training features:

- ✓ Practical approach, bringing classroom training alive with real-life case studies, tailored to meet specific company / industry needs
- ✓ Based on lean manufacturing methods used by world-class corporations
- ✓ Involves workers in factory improvement efforts and turns the workforce into a competitive advantage
- ✓ Supports the enterprise to grow from a traditional manufacturer to a global supplier
- ✓ Provides value for money – cost of the training is often recovered within the first few months of implementation

SCORE Training Results

ICS members support SCORE Training for suppliers

ICS is a social and environmental multi-sector initiative with the aim to enhance working conditions along global supply chains of its member retailers and brands. ICS is composed of 45 multinational retailers and brands in the sectors of retail, textile, clothing, footwear, furniture, electronics and food. ICS members collaborate with common tools, to mutualize audits, contributing to the reduction of the 'audit fatigue' and share knowledge and best practices.

By partnering with ILO SCORE, ICS members further engage to accompany factories beyond audits. All SCORE Trainers are highly experienced, trained and globally certified by the ILO.
