WHY: Purpose of Factory ID

Enable factories to gain **visibility in the international supply chains**, empower them to improve their working conditions, create a two-way communication with their buyers, and **promote transparency and traceability** in the retail industry.

WHAT does the Factory ID do

Gain visibility towards potential buyers looking for sustainable products

Create an online profile and QR code to market your business globally

Easily verify the validity of your certifications and sustainability claims

Showcase the network of brands already sourcing your sustainable products

HOW to get a Factory ID?

ICS Factory Profile

Step 1: Complete your Factory Profile

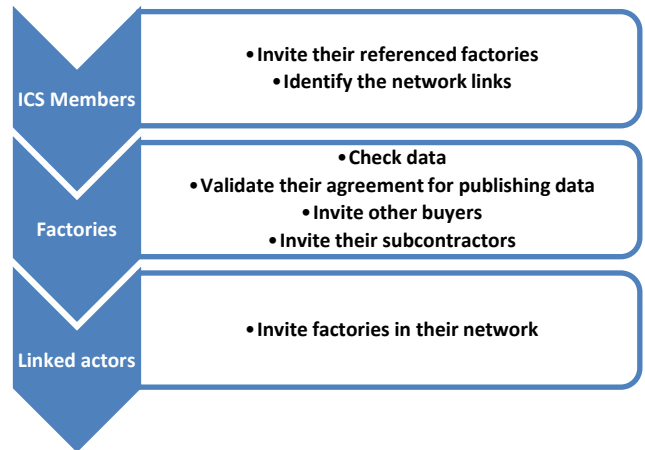

through the invitation from an ICS Member to connect the ICS database.

ITC Factory ID

Step 2: Complete your Factory ID and check whether the details about your factory are correct.

Step 3: Manage your PRIVACY and in one click gain visibility by creating a **FactoryID** with information about your products, services and capacity, including for trade or export.

WHO benefits and HOW?

FACTORIES

Increased visibility in the value chain

- Who are you and what do you do in the supply chain?
- Link your products to traceability systems for market access.

INTERMEDIARIES, BUYERS, RETAILERS

- Manage and communicate your sustainable supply chain commitments to your customers with confidence (supply chain management tool).
